

Xinghao Huang

BSc Statistics, Year 4

+1 (672)-727-2297 | xinghaohuang3@gmail.com | github.com/xhuang512 | xhuang512.github.io

Education

University of British Columbia

Sep 2023 – Present

Bachelor of Science, Major in Statistics

Technical Skills

Programming:

Python, R, SQL, Java, Go

ML & Data Science:

pandas, scikit-learn, Altair; regression, classification, cross-validation, hypothesis testing, model evaluation

Databases:

Oracle Database, PostgreSQL, MongoDB

Web & Development:

Git/GitHub, REST APIs, JavaScript, TypeScript, React, Flask, Node.js, Express

Selected Projects

Urban Bike Infrastructure Maintenance System

Node.js · Oracle

- Built a Node.js/Express app with Oracle Database for bicycle inspection and maintenance.
- Designed a relational schema and workflows to track bike conditions, inspections, and maintenance history.

Interactive Music Player with Rhythm Game

Java · Swing · JUnit

- Developed a Java Swing music player with rhythm-game functionality and persistent JSON storage.
- Applied reusable design patterns and JUnit testing to core song-management and gameplay logic.

Canadian Fire Visualization

Python · Altair · pandas

- Created two interactive Python/Altair dashboards to analyze Canadian fire severity across geography and time.
- Used pandas for data cleaning and handled inconsistent labels and missing records across multiple decades.

SkySync

React · Flask · APIs

- Designed a React/Flask music platform integrating OpenWeatherMap and Spotify APIs.
- Implemented weather-driven recommendation flows and rapidly prototyped the frontend for the MVP.

Experience

Teaching Assistant, UBC Department of Computer Science

Sep 2026 – Present

- Lead two lab sections for an upper-level data science course and support students with course concepts and exercises.

Imagine UBC Orientation Leader, UBC Go Global

Sep 2026

- Selected as one of 85 Go Global Orientation Leaders to support incoming exchange and visiting students.
- Provide orientation guidance, peer support, and campus resource referrals during Imagine Day

Software Developer Intern, RealMaster Technology Inc.

Jul 2026 – Aug 2026

- Develop Go and TypeScript data pipelines for transit, property, and cloud-file processing workflows.
- Work with MongoDB-to-PostgreSQL migration, data validation, unit testing, and GitHub-based code review.

Market Researcher, Real Property Data

May 2026 – Jun 2026

- Collect and verify real estate listing, pricing, transaction, and development data from field and online sources.
- Organize and reconcile records across multiple sources to support internal market-data updates.

Notetaker, UBC Centre for Accessibility

Jan 2026 – Apr 2026

- Produced accessible lecture notes within 48 hours while maintaining confidentiality and accessibility standards.

Exchange Student, Fudan University

Jun 2025 – Jul 2025

- Completed 5 UBC-transferable credits and received the UBC Go Global International Learning Programs Award.
